

## **ANNEX – G: TORNADO**

The threat of severe weather exists on campus year round. In recent years, Washtenaw County has experienced tornado activity.

- **Tornado Watch** – means that atmospheric conditions are favorable for the development of a tornado; although, it is not an immediate threat in most instances.
- **Tornado Warning** – means that a tornado has either been sighted in the area, is approaching the area, or is imminent within the next ½ hour to hour. A tornado warning will be issued by Washtenaw County Emergency Management.

If you are notified of severe weather or a tornado:

- Stay away from doors and windows.
- Take a flashlight with you if one is available.
- Proceed to one of the designated tornado shelter rooms / areas.
- Do not go outside until the all clear is given.
